

– Bayfront’s Lactation Services – Helping Moms & Babies Have A Successful Breastfeeding Experience

Bayfront Medical Center offers the information you need to make a decision that’s right for you and your baby.

Our certified lactation consultants offer education and guidance for women who are pregnant and considering breastfeeding. They provide support and encouragement to new moms who have questions about breastfeeding, and give advice to breastfeeding mothers returning to work.

Bayfront is south Pinellas County’s only hospital providing comprehensive, professional lactation services for area mothers. And, we are here for you.

Our Lactation Services

One-on-One Consultation

New mothers who deliver at Bayfront are offered a one-on-one consultation during their stay. It's a courtesy we're glad to offer. Please tell your nurse you would like our help. Follow-up consultations with one of our lactation consultants are available by appointment.

Prenatal Breastfeeding Class

Learn the basics of breastfeeding in an interactive class that uses videos, diagrams and dolls. Your partner (Dad or significant other) will gain a better understanding of how to support you in a successful breastfeeding experience. Class size is limited to allow more personal attention. Please call our office for a class schedule.

New Mother Support Group

Meet other new moms on every Tuesday of the month from 10 am - noon, in the Family Health Center (room locations may vary). Healthy babies ages newborn to one-year are welcome. No pre-registration is required.

For more information about Bayfront's Lactation Services, please call (727) 893-6854 or email us at lactationservices@bayfront.org
